DETAILS

Cookware designed for lovers of cooking and foodies. The elegant, straight shape makes these unique pieces, with which Masterchef contestants make their best gastronomic creations. With compact diffuser base, suitable for induction. Manufactured through a sophisticated 'all-over technology', which allows the interior of the base to be completely filled with a thick layer of aluminium, leaving no empty cavities and allowing for a faster and more uniform diffusion of heat right up to the edges of the pan. All-over technology prolongs the useful life of the product, preventing food residues, water or detergents, which would eventually cause damage, from accumulating within the diffuser base.
